

# Bursary Application Form

## INTRODUCTION

The Math<sup>+</sup> Enrichment and Engagement programs offer a number of bursaries to students for our various programs.

A parent/guardian, teacher or other educational supervisor can submit this form. Please note that we require a separate application for each student. You may apply for multiple programs at one time however.

Please keep in mind that while we recognize that many participants could benefit from a bursary we can only accommodate so many. While we strive to ensure fairness and provide as many participants as we can with assistance not all applications received may be accepted. We thank you for your understanding with this.

If you are applying for a bursary please **do NOT pay** for the program before receiving information on your bursary application. Refunds will not be processed for successful bursary applicants if payments have already been made.

## TIMELINES

Applications are accepted on an on-going basis for all our programs. Please note that applying for a bursary does not guarantee you a spot in a program so we recommend you apply early. We will respond to your bursary application as soon as possible. If you have not heard back from us within 2 weeks of submitting please contact us.

## SELECTION CRITERIA\*

- Quality of Application
- Interest of the student (see page 2)
- Household income (Optional but will aid us in determining the students that need the bursaries the most)

*\*The Department of Mathematics at the University of Toronto reserve the right to decide who receives bursaries as well as the right to determine how many bursaries are available based upon available resources.*

**APPLICATION FORM**

Please fill in all sections fully; failure to do so will affect the outcome of your application.
